

ECOSOFT SELF-CLEANING FILTERS

These filters are specially designed for complex well water. They feature a backwash function, which extends the lifespan of the filter element and allows for regeneration without direct contact with contaminants

WATER SOURCE: Tap water supply.

APPLICATIONS:

Basic, cheap solution for tap water treatment

FUNCTION:

Basic removal of sediments (sand, clay, rust). Equipment protection - extending the service of life home appliances

KEY FEATURES

- Compact size, can be mounted in hard-to-reach places
- Easy install with common connectors 1/2" FM & 3/4" M
- Included pressure gauge
- Stainless steel cartridge 80- micron

The product is completed:

- Set of fittings 2x 1/2" M and 2x 3/4" M
- 1 pressure gauges, for timely flushing
- 80 mic on stainless steel cartridge
- Valve for flushing the filter
- Service wrench

TECHNICAL SPECIFICATION

	FFNS2P1522	FFNN2P1522
Flow rate, m3/hour		1.9
Filtering rating, micron		80
Working temperature, °C	+5...+45	+5...+80
Operating pressure, bar		1.5 - 6.0
Dimensions, mm		205 x 49 x 84
