

RObust connection fitting pack.

This fitting pack allows to connect one 3/4" pressure tank and up to three consumer appliances to an Ecosoft RObust reverse osmosis system.

Some of the fittings shown on the diagram come from RObust package. These fittings can be used interchangeably or together with the fittings from RObust connection fitting pack when it's necessary to connect more than one appliance with 3/8" or 1/2" female thread ports or a 3/4" pressure tank. If any of your appliances have different thread sizes, use a suitable adapter for connecting it.

Parts included in the RObust connection fitting pack

# on Diagram	Part	Quantity
