

## 3P HOUSING FILTERS

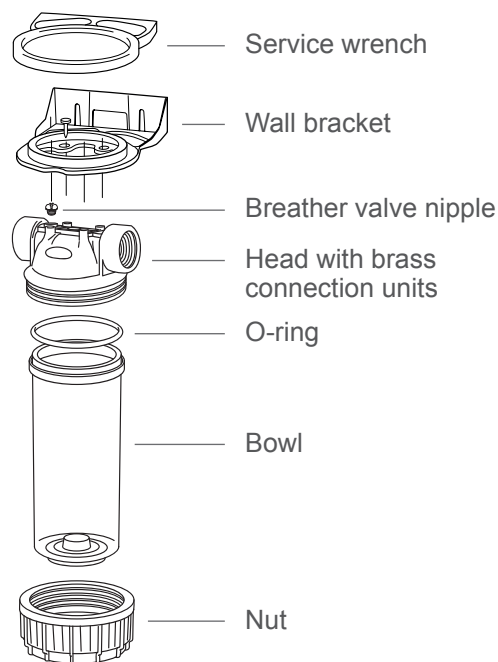

The 3P housing is designed for water purification for residential and commercial applications.

The bowl is made of PET material, which guarantees reliability and durability.

Equipped with a plastic breather valve.

### KEY FEATURES

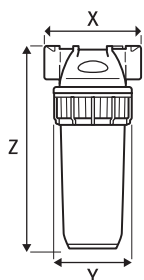

- A 2 mm belt on a bowl helps center the head for easy assembling and better pressure resistance
- Less pressure drop through "star-like" head design
- Compatible with three cartridge designs: DOE, BIG, COD3
- Smart placement of the wrench in the bracket avoids its loss

### DATA SHEET

<b>Head</b>	PP with brass connection units
<b>Nut</b>	Nut in PA
<b>Bowl</b>	PET*
<b>O-ring</b>	EPDM
<b>Max working pressure</b>	8 bar
<b>Max working temperature</b>	From 5°C (41°F) to 50°C (122°F)
<b>Bracketing</b>	Horizontal
<b>Fastening</b>	Axle base fixing hole 40x32 mm hole for screws 3 mm
<b>Connection</b>	Screw thread in inch
<b>Package</b>	Empty housing without filter cartridge
