ECOSOFT CROSS90 DIRECT FLOW REVERSE OSMOSIS FILTER

KEY FEATURES:

1. Direct flow RO – 1,5 liters per minute
2. Smart-indication – filter lifetime and water quality reminder
3. Recovery rate >50% – outstanding performance in water saving
4. Smart Flushing – built-in automatic flushing program
5. DIY Filter Replacement – the replacement process does not need to cut off the water source
6. Slim Design – save more under sink space

FILTRATION TECHNOLOGY:

- Composite Filter PP + CTO – remove sediment and rust particles, reduces content of chlorine, chlorination byproducts, natural organic matter and petrochemicals
- 600 GPD RO membrane element – purifies water from 99.8% of impurities including bacteria and viruses, unpleasant tastes or odors
- CTO filter – improves taste and odor of the purified water

RO/CB/CF
Filter lifetime
indicator

- Life Normal
- Life close to end
- Need to replace filter

SPECIFICATION:

Code	Flow capacity, GPD	Inlet pressure, bar	Connections	Dimensions, H x W x D, mm
MO3600PECO	600	2–4.5	1/2"	458 × 140 × 435

COMPONENTS:

- Filter housing
- Set of replacement filters
- Smart faucet for purified water
- 3-way connector
- Drain saddle
- Pack of tubes
- Detachable power supply
- User manual
